

Acknowledgements

Family Services of Greater Vancouver and the Public Guardian and Trustee of BC are grateful for finding each other to develop this financial education resource for youth. It was the perfect marriage of the PGT's need and FSGV expertise and experience.

After the manual was developed The Ministry for Children and Family Development further increased the effectiveness of the partnership by sponsoring the printing of the Manual and the developing & delivery of the Dollar\$ and Sense program for youth.

Our special thanks go to the resource people – the youth advisory committee and the youth focus group participants - who shared their experiences and expertise with us to make this an effective and relevant resource guide for youth.
